Arrow Material Handling Products

Sidney Attachments offers several tree saw attachments — all designed for high-performance with engineered components that make clearing trees and brush easier and faster than before.

POWER TILT

MANUAL TILT

TRACTOR

FEATURES

- » SS Tool Steel Saw Mill blade is designed for high performance cutting
- » Bolt-less Kodiak Carbide teeth held in with rivets to allow for simple replacement
- » Cuts up to 24-inch diameter trees and brush quickly and easily
- » Manual Tilt and Power Tilt models accommodate both low flow and high flow skid steers
- » Hollow ground design to eliminate pinching and binding
- » Thin blade curve minimizes the power required
- » Easily replace teeth without fighting bolts
- » Over 90% efficient while reducing heat, noise and hose/gearbox losses
- » Power Tilt model offers 90-degree rotation
- » Manual Tilt model offers 180-degree rotation
- » Tractor model offers PTO: 540RPM with clutch set at 47HP
