

LOAD-N-GO PLATFORMS

The Load-N-Go Platform is a powerful solution for safely and efficiently transferring equipment between ground level and trucks or trailers. Built for heavy-duty use and smart mobility, it combines forklift compatibility with secure towing, lifting, and loading features, all in one compact footprint. Designed with safety and speed in mind, it simplifies loading tasks for yards, rental shops, or job sites.

1 PLATFORM ◀ 3 FUNCTIONS LOAD IT. LIFT IT. TOW IT.

Features and Benefits

- » Fork pockets for quick and easy attaching
- » Integrated ramp for smooth loading and unloading
- » Raises to trailer height to simplify transfer
- » 2" receiver hitch accepts 2" towing hitches (6,000 lb MGTW / 2,000 lb lift)
- » Central lifting point with 1" hole rated for 2,000 lb vertical lift
- » 48" x 48" platform handles compact and mid-sized equipment
- » Built tough: 6,000 lb load capacity with heavy-duty frame

Part #	Weight	Length	Width	Height	Capacity
